

Red Oak Gems

2015 Price Structure for full cut faceted stones up to 20 Carats:

Equidimensional shapes: Round, square, triangle, hexagon, octagon = $\$(10C + 60)$

Fancy shapes: Marquis, pear, oval, heart = $\$(10C + 80)$

50% minimum premium on cutting of the following gem materials: Emerald, Ruby, Sapphire, Kunzite, Alexandrite, Tanzanite, Spinel.

20% minimum premium on calibre cutting to 0.05 mm or to custom fit.

The expressions above represent approximate cutting charges within a 20% range. Specific quotes will be given on gems not falling within the limits of these expressions and their applicably noted premiums.

Price structure for repairs to faceted stones:

Full Recut Price (FRP) = Price as cut from rough

Total Crown Recut = 50% FRP

Total Pavilion Recut = 50% FRP

Minor repairs = 30% FRP

Moderate Repairs = 50% FRP

Extensive repairs = 70% FRP

EXAMPLE: Repolishing or recutting the crown of a 3 carat oval sapphire would be 50% of \$110 plus a 50% premium for the type of material. In other words, $\$110 \times 50\% = \$55 \times 1.5(50\% \text{ premium}) = \82.50 (plus shipping charges)

Minimum Charges: Cabochons - \$20 Faceting - \$35
